

SDC - NEET TRAINING

Saveetha Dental College, which is a part of SIMATS Deemed University, is recognized for its commitment to offering quality education to its students. As part of this commitment, the college provides NEET training to its Bachelor of Dental Surgery (BDS) students throughout their internship term.

The NEET training programme is well-structured and comprises online theoretical sessions covering all the basics and clinical science areas, along with periodical tests to assess the performance of the students. The programme is aimed to assist the students thrive in their national rankings and secure government or private seats for their post-graduation courses. The institution has collaborated with Advanced Biotech Private Limited Company to provide additional advantages to the students who do well in the programme. The well-performing students are awarded with preparatory books and scholarships, which act as a great motivation for them to succeed further.

This NEET training programme has been a major success, with 95% of the students who have received this training displaying outstanding performance in their national rankings. The programme has helped many students gain government or private seats for their post-graduation studies, and the college is proud of its students' accomplishments. Saveetha Dental College continues to strive towards quality in education and is devoted to equipping its students to succeed in their future efforts
